CERAMIC HOT TILES

These colourful Gastronorm sized tiles drop into the wells of bains-maries or chilled service counters.

Food can either be displayed directly on the tile or in a ceramic dish placed on the tile. The tiles absorb the temperature of the counter so do not require any power. Manufactured from hard wearing ceramic the slim-line

tiles are backed with 18-gauge stainless steel with three fins on the back to keep them in position. They lift tired old bains-maries and also enhance new counters - giving an instant, dramatic improvement to food presentation.
